

Keep the New Jersey "DO NOT CALL" list active and resticked as so  
Telemarketers cannot call your house AT ALL if you are on the  
list. It is my choice to put my name on the list so they do not  
call my home, so it should be my choice to not let them call my  
home. The goverment should not be able to lift that right. If  
people want telemarketers to call them then they should not put  
their name on the list.
